1.0 PENGENALAN

Smart-IQ Academy diasaskan oleh Puan Ruha Dani dan Encik Azmin Razali pada tahun 2007 dengan permulaan yang sangat sederhana kerana ianya bermula dengan pendidikan untuk anak-anak mereka. Ini kerana sebagai ibu bapa, mereka pastinya mahukan yang terbaik untuk anak-anak mereka. Mereka sangat percaya bahawa setiap perlakuan, kepintaran, kecenderungan dan tindakan bermula dari otak. Jika minda seseorang dilatih dengan baik, maka hasilnya juga akan menjadi baik.

Mereka mula melatih anak sulung mereka yang pada awalnya agak ketinggalan di dalam pembelajaran yang kemudiannya menunjukkan peningkatan yang sangat memberangsangkan. Ini adalah kerana intervensi dan latihan dimulakan dari usia yang muda lagi. Perkembangan yang luar biasa dapat dilihat dari segi intelektual, sikap dan emosi setelah otak diaktifkan dan dilatih dengan baik. Anak yang pada tahun 1 persekolahan dimasukkan kedalam kelas yang terakhir kerana tidak pandai membaca lagi, kini telah menamatkan Ijazahnya pada usia 16 tahun.

Dengan pendekatan dan teknik yang sama, mereka telah berjaya mengubah dan membantu lebih daripada seribu orang pelajar dari yang hanya 'biasa-biasa' sehingga menjadi 'luar biasa' dengan menyerlahkan potensi minda mereka ke tahap yang lebih tinggi.

Pada tahun 2012 mereka telah mula membawa konsep pembelajaran yang menggunakan kaedah yang berbeza iaitu *POWER BRAIN*. *POWER BRAIN* adalah program pengaktifan minda. Mengambil pengajaran daripada peristiwa hijrah Rasulullah, mereka pun mula berhijrah pada tahun 2013 ke premis baru di Taman

Putra Kajang, Kajang Selangor. Dengan premis yang lebih besar sekitar 3800 kaki persegi, pelbagai program baru berkaitan potensi minda mula diperkenalkan sebagai salah satu jihad ilmu dalam membangunkan ummah terutamanya ibu bapa dan golongan dewasa.

Pada tahun 2014, “Program Syafie” iaitu program lanjutan mingguan. Program *Little Syafie* merupakan program yang pertama bagi “Program Syafie”. Kini di Smart IQ menawarkan 5 “Program Syafie” yang setiap satunya mengambil masa 11 bulan iaitu *Junior Syafie*, *Little Syafie*, *Smart Syafie*, *Brainy Syafie* dan *Alpha Syafie*. Program-Program ini adalah untuk pelajar yang berusia bermula dari 5 tahun sehingga 50 tahun. Pelajar-pelajar dari “Program Syafie”, terdiri dari lokasi-lokasi yang agak jauh iaitu Terengganu, Pahang, Perak, Johor dan Negeri Sembilan pada setiap hujung minggu selama 11 bulan untuk mendapatkan latihan minda dari Smart IQ.

Pada tahun 2015, satu lagi program baru diperkenalkan iaitu “*Smart IQ Kindies*” iaitu program Pra Sekolah. Dengan pendekatan berbeza dan holistik, ramai ibubapa yang datang dari jauh contohnya Seremban, Nilai, Wangsa Maju, Keramat, Shah Alam dan Puchong untuk mendapatkan sistem pembelajaran yang menarik dan berkesan yang disediakan di sini. Pada tahun 2018, satu lagi pertambahan titik baru untuk Smart IQ apabila pengambilan pertama Sekolah Rendah Islam Integrasi “*Smart IQ School of Life*” dimulakan yang juga merupakan kesinambungan dari program “*Smart IQ Kindies*”.

Mulai tahun 2014 Smart IQ mula menawarkan program *Power Brain* kepada golongan dewasa dan ramai individu yang berjaya dibantu untuk dikeluarkan potensi dirinya. Mulai tahun 2017 Smart IQ mula dijemput untuk mengadakan program latihan di pejabat kerajaan dan di sekolah-sekolah.

Pada tahun 2018 Smart IQ telah mendapat pensijilan dan Universiti Harvard dalam Projek Kajian yang bertajuk *Bagaimana Power Brain menyerlahkan Kepintaran Pelbagai pada semua pelajar* (“*How Power Brain training unleash Multiple Intelligence in all learners*”).

Kepakaran Smart IQ Academy adalah menganalpasti dan mengeluarkan potensi diri seseorang individu dengan pelbagai teknik dan merupakan satu-satunya *Islamic Brain Education Academy*, Sekolah Tadika dan Sekolah Rendah dan Pusat Latihan Perundingan yang mendapat 2 pensijilan ini dari Universiti Harvard di Malaysia.

Steps of maintaining Optimal Mental Efficiency

What are the Smart-IQ secret to in cultivating such great mind at young?

1) TAKE CHARGE OF YOUR BODY - GET INTO YOUR "ZONE"

Take control of your nervous system before its control you because it's impossible to be your best while scared, stressed out, anxious or fearful. Our natural body reaction of nervous systems tries to shut down all non-essential systems and get us to safety. The down side is it will jeopardize the performance. Using you inner energy you have to get rid of this symptom first. Here in Smart-IQ we use "CHARGE ENERGY" technique to get you into the zone.

2) LASER LIKE FOCUS – GET YOUR INTENTIONS RIGHT

Focus is a skill that need to be taught in practical training. The intentions we set each day tell our subconscious mind and R.A.S. (reticular activating system) what to focus. Our R.A.S. filters out over 99% of the information, so you can preserve brain glycogen to solve problems when they arise. When you consciously decide what to focus on you can select where you want to place your awareness. In our program observation and photo Memory training been taught to increase the awareness and alertness to learn how to control your focus and attention. Blindfolded Archery is one of modules to train focus in fun way.

3) PERIODIC BRAIN TRAINING

Periodic Powerful and effective Power Brain blindfolded Training in our long term Smart-IQ Brain Education systems enhance students' brain capabilities and performances. Smart-IQ Kindies

The Objectives

- We prepare them not only for school but for the whole life.
- We inspire them to bring the best muslim in themselves.
- Our proven methodology will unleash their potential and performance.
- We equip them with living skill that very relevant for their survival.
- We equip them with strong foundation for the better future.
- We instill the very high self confidence and leadership.
- We assist them to develop their EQ, SQ, IQ, CQ and AQ.

Our 4 Steps

4 STEPS OF OUR METHODOLOGY (DAIE - Discovery Awakening Integration Enhancement)

- 1) Discovery
 - Scientific Fingerprint Analysis
- 2) Awakening
 - Brain Activation (Power Brain)
- 3) Integration
 - Integration of Power Brain with Preschool Syllabus.
- 4) Enhancement
 - Enhance and master the skill.

DAIE - which means as preacher or people who invites other people to do good deeds and continuous improvements.

The Difference

Smart IQ Kindies is beyond normal Pre-School Program. We believe the best time to train the child Potential Brain Power is before the age of 7.

The mission is to upgrade and to mould the brain to the fullest during the development period. With the right methodology and input together we strongly believe that we could produce super kids and super muslims. The super muslims who can perform very well in the world and hereafter.

The golden age of 0-6 years old is a very crucial period to have a strong foundation so that the child will grow as an extra ordinary people in their life. Some parents only focusing on reading skills which should be master at early age whereby the brain training by right should come together.

Due to lack of understanding on facts, they will missed this golden opportunity to train their children's brain during the development growth period and the true hidden brain potential will remain unlocked.

Our methodology will enable the child not only to be able to read, but also able to read blindfolded. They will be trained also to have mental photographic reading abilities.

Our module will train them not only to write and draw, but also to write and draw blindfolded. They also expected to have a powerful memorization skill, creativity and imagination. They also will have laser like FOCUS once they can master the skill of blindfolded archery. They will be expected to have great intuition ability once they already master the skill of blindfolded martial art.

Blindfold is only a tool to ensure that the kids are able to FOCUS on the task handed to them. They are expected to use their intuition, memory and creativity in all sorts of activities created for them in a form of games. They will be unaware that the brain training is in progress as they sees it as just playing games. We incorporated FUN in all of our module so that the children will feel happy while learning.

Testimonial Anas Mujahed

"Terima kasih teachers semua. Smart IQ Kindies memang Extraordinary. Saya perasan Anas lebih rileks dan pandai control and overcome perasan gementar dia berbanding dengan dulu. Saya nervous fikirkan boleh ke dia perform semasa Graduation Day didepan orang ramai sebab di rumah tak ada practise langsung. Alhamdulillah he performed very well and very calm on stage. Muka rilek sambil boleh senyum sambil menyanyi. What Kindies has deliver is beyond my expectation. Sebab masa preview saya sendiri pun tak yakin betul ke? Tapi bila tengok Anas sekarang saya sangat gembira. Terlalu banyak improvement and self development saya lihat pada Anas. Thank you very much Smart-IQ Kindies. - Puan Farah Waheeda -

Zarif Rani

Februari 2015 saya mencari-cari sekolah yg sesuai utk anak saya, Zarif. Dia ada masalah tak nak ke sekolah.

Bila pagi-pagi menangis je.. sampai di kaki lima sekolah dia menggelupur. Betapa dia bosan dan tidak minat belajar. Ketika itu saya tengah sarat mengandung, bekerja, belajar dan suami sentiasa jauh 3,4 bulan baru balik. Perangai zarif pulak kalau dia tidak suka sesuatu perkara dia akan memberontak. Taknak belajar sampaikan menulis pon tak pandai. Alhamdulillah... dengan Izin Allah selepas 3 bulan bersekolah di smart IQ dia mula menunjukkan sifat yg positif. Kini zarif dah kindies 6, banyak perubahan. Sekarang minat utk belajar makin tinggi. Dia pon dah masuk kelas modular tahfiz. Makin minat terhadap tahfiz, doakan Zarif menjadi al hafiz . -Puan Siti Noraazillah -
